

# LATERAL MOVE SYSTEMS.

Our Electrogator and Alumigator lateral move systems receive the same high quality materials and attention-to-detail engineering as the rest of our irrigation line. They also have enough custom features to match your exact needs. When the goal is watering your square or rectangular field while conserving water, look no further than Reinke.

## **2-WHEEL POWER TOWER/HOSE PULL**

Our 2-wheeled option offers great versatility with features such as forward and reverse tow options, double inlet hose systems, internal check valves and quick coupler connections on both ends. A double-end feed option is also available.

## **4-WHEEL POWER TOWER/HOSE PULL**

Our best option for larger fields. Floating axles keep all four tires on the ground, allowing this unit to pull large hoses (up to 8-inches) as required by high flow systems. With either power cord pull or an onboard power supply, this is your right-hand man.
